

PARTY SMART, SHOW YOU CARE

WHEN HOSTING A PARTY: COVID-19 CONSIDERATIONS

Reduce your risk and the risk for others by doing the following:

Contact your neighbor(s), provide your cell phone number, and ask them to contact you before contacting police

Limit your party to only a few close friends

Join your friends outside

Know what is allowed in your lease and know city nuisance and noise ordinances

Ask friends to symptom check before coming over; if a friend is sick (even minor symptoms) tell them to stay home

Remind friends to bring and wear face coverings

To avoid unwanted people, ask friends not to post on social media

Lowest Risk: Virtual-only activities, events, and gatherings

- Virtual happy hour
- Virtual game night

More risk: Smaller, outdoor, and in-person gatherings where attendees:

- Are able to maintain physical distancing (6+ ft. or 2M)
- Are wearing a face covering
- Are not sharing objects (drinks, vape pens, water bottles, etc.)
- Come from same geographic area

Higher risk: Medium-sized, in person gatherings that:

- Are not adapted to allow for physical distancing (6+ ft. or 2M)
- Attendees coming in from different geographic areas

Highest risk: Large, in-person gatherings where:

- It is difficult to practice physical distancing
- Attendees are from different geographic areas

adapted from CDC guidance

Sharing items increases risk; avoid sharing cups, drinks, vapes, water bottles, etc.

If the police show up, wear a face covering and comply with any requests

Remind friends to physical distance (6+ ft or 2M)

Alcohol only for 21+ and drink responsibly

Keep your noise level down
